

Minutes
Redvale Landfill
Community Liaison Committee Meeting
Held at the Redvale Landfill Office - Monday 26/11/2019 at 6:30pm

Site tour: 6pm

Welcome: 6:30pm: Warwick Hojem

Present: W Hojem, L Johnston, B Macfarlane, J Hutchinson, M Joubert, A Nicholas, N De Witte, K Storie, J Jefferis, D Marshall

Apologies: A McNeil, S Dryland, B Gibbs

Absent: A Pattle, S Walker, M Drury

Minutes previous meeting: Circulated

Minutes be accepted as a true and correct record – J Hutchinson
Seconded – B Macfarlane

Matters arising:

- Welcome to Maxine. Emphasis around how important it is for us to have an Auckland Council rep attend each meeting.
- S Dryland to correct spelling of Mynah birds from last minutes

Correspondence In: Nil

Correspondence Out: Nil

- B Macfarlane presented an Operational update. Currently filling along the old Haul Road, and excavating road aggregates ahead of the filling. Cover is being placed over the previous filled section of 20B. Operations staff are still at near capacity, with one recent resignation of an Operator, but staffing levels remain adequate for workload.
- New Senior Management Team – Lewis Morgan, Operations Manager, Glen Jujnovich, Generation Manager, and Kamal Prakash, Workshop Supervisor – have settled in well over the last quarter and moral is good on site.
- TCD Earthworks Contractors are on site developing the next two cells, and they will be completed for handover February and April 2020.

Complaints:

- Blair reviewed the WMNZ record, noting that August September October were relatively free of complaint but we had had some in November as we changed between cells and Landfill Gas was detected from time to time. In general response times from Vania and the Operations Team were excellent.
- Nick De Witte noted that the Auckland Council record appeared incomplete for the same period and that complaints he had made in the period to Council appeared missing. Maxine to follow up with Laura. Nick expressed concern that complaints to Council and WMNZ were not being followed up promptly. Blair responded that he was very pleased with the standard and timeliness of complaint response and provision of record by Redvale Staff, and that any complaints directed to the Redvale complaint line provided would be actioned promptly.

Warwick requested that Vania provide an updated presentation to the next CLC meeting.

Regulatory Issues:

General Business:

- Pest Control
Blair reported that 317 Mynah birds had been disposed since 19/9, by shooting only as cats had been interfering with the trap.
Jenny would be happy to see Redvale engage in possum trapping and rat baiting as well.
Blair to explore options.
- Rubbish is being illegally dumped at the entrance of #125 HSB Road, Blair to look into options to prevent. Rubbish dumped along Richards Road had been removed by WMNZ staff.
- Waste Management is proposing to run a trial of a new leachate evaporator technology. The CLC will be shown the unit in operation at the next meeting and will be notified when the trial starts. Concerns raised about the extent of visibility of the steam plume will be incorporated into the testing.
EDIT: Concerns were also raised about potential toxic emissions i.e. VOCs

Next meeting date: 17th Feb 2020 - TBC
Proposed Christmas dinner: 23rd November 2020

Meeting closed: Not recorded
